

Giorgi Jobava

Professional Summary

Creative and detail-oriented **Front-end Developer** with 3 years of experience developing responsive, mobile-first web applications using **React, Next.js, TypeScript, and Tailwind CSS**. Skilled in **microservices integration, REST/OpenAPI, and JSON handling**. Practical exposure to **cloud environments (AWS, Firebase, Supabase) and containerization with Docker**. Experienced in **CI/CD pipelines (GitHub Actions, GitLab CI), Test-Driven Development (TDD), and accessibility standards**, with a strong focus on UI/UX principles and performance optimization.

Work Experience

Front-end Developer | Tridan AI (Remote)

Jan 2025 - May 2025

- Built and maintained modern, responsive pages with **React, Next.js, Nest.js, and Tailwind CSS**, integrating with **microservices-based architecture** and following **TDD practices**.
- Integrated third-party tools like **Google OAuth** and **Supabase**, ensuring secure and efficient data handling and **API** integration.
- Collaborated with designers to implement UI/UX improvements, **enhancing usability and reducing bounce rates by 20%**.
- Improved mobile experience and reduced bounce rate by **15%** through **performance optimization, accessibility enhancements, and responsive design**, tested with **Jest and Cypress**.
- Collaborated with clients and cross-functional teams to deliver UI updates, **content changes**, and **bug fixes** under tight deadlines, demonstrating adaptability and communication skills.

Front-end Developer | Freelancer on Upwork (Remote)

Feb 2023 - Present

- Built clean **HTML/CSS and React components** from Figma designs, integrating with **REST APIs** and deploying in **cloud environments (Firebase, AWS)**.
- Delivered 10+ pages that enhanced user satisfaction and feedback, achieving a **95%+ client satisfaction rate**.
- Utilized Git and GitHub for version control, implemented **GitHub Actions and GitLab CI pipelines**, and participated in **agile ceremonies (backlog refinement, story estimation, code reviews)**.
- Used **Framer Motion** to create custom animations and transitions, enhancing the visual appeal and user engagement.
- Implemented custom interactions and animations with **Framer** to enhance user engagement, showcasing strong UI design capabilities.
- Supported product and marketing teams by implementing **frontend updates for digital campaigns** and promotional landing pages..

Skills

Languages & Frameworks:

- HTML
- CSS
- JavaScript
- TypeScript
- React
- Next.js
- Nest.js
- Express.js
- Node.js
- Three.js
- Redux Toolkit
- MySQL
- TanStack

Styling & UI:

- Tailwind CSS
- Shadcn
- Bootstrap
- SCSS
- Framer Motion
- UI Design
- Radix UI

Testing:

- Jest
- React Testing Library
- Cypress
- Unit Testing

Tools & Dev:

- Git
- Jira
- AWS
- Docker
- Gitlab/BitBucket
- Jenkins
- Kanban
- VS code/ IntelliJ IDEA
- Agile/Scrum
- CI/CD
- Github Actions
- Supabase
- Google Firebase
- OAuth
- Google Maps API
- Figma
- OpenAPI
- REST & RESTful APIs
- Docker
- Microsoft Office

Practices:

- Mobile-first development
- Cross-browser compatibility
- API integration
- UX collaboration
- Performance Optimization
- Talent Acquisition
- Workflow management

Languages

English (Advanced C1)

Georgian (Native)

Russian (Proficient C2)

German (Beginner A1)

Projects

Interactive Treasure Hunt Website | June 2025

- Created a city-wide game using **Next.js**, **Three.js**, and **Tailwind**, deployed on a **cloud environment (Firebase, AWS)**, featuring **QR-based interactions**, **accessibility compliance**, and monitoring with **basic Grafana dashboards** for testing.
- Built puzzles, QR-based interactions, and **mobile-first** responsive layout.
- Managed the **full dev** process from design to launch, engaging **30+ participants**.
- Added smooth **transitions** to enhance user feedback and interaction, with attention to **visual details**.

[View Project \(GitHub\)](#) [View Live Demo](#)

Admin Dashboard | January 2025

- Developed an admin dashboard with **Next.js 15**, **TypeScript**, and **Tailwind CSS**, featuring real-time data visualization, product management, and email integration, aligning with product development best practices.
- **Implemented advanced state management and UI architecture** utilizing Redux Toolkit, Radix UI components, Framer Motion animations, and custom hooks across **50+ reusable components**, ensuring a seamless user experience.
